Placement
Shiksha

DevOps Online Training Course

Our online DevOps Mastery Course is a comprehensive, hands-on journey designed to transform students into industry-ready engineers by bridging the gap between software development and IT operations.

Through this program, you will dive deep into the culture of continuous integration and continuous delivery (CI/CD), learning to automate complex workflows using high-demand tools like Docker, Kubernetes, Jenkins, and Terraform.

Why DevOps ?

213000+
Jobs Worldwide

$ 25.5 Billion
expected market growth

19.7%
average annual growth

$109,243
average annual salary of an DevOps expert

Placement Shiksha

Tools We Learn

Key Features

Master 30+ DevOps Cloud Skills:
Acquire a comprehensive skillset in DevOps from industry experts.

Hands–On Labs with 30+ Creations:
Master DevOps skills with hands–on lab, practices & troubleshooting.

Guaranteed Certificate Assistance:
Receive full support to obtain certifications with 100% assistance.

Interactive Learning with 20+ Quizzes:
Acquire a comprehensive skillset in DevOps from industry experts.

Placement Shiksha

The Complete DevOps Course

Module 1:

Introduction To DevOps:

Topics:

- What is Software Development
- Software Development Life Cycle
- Traditional Models for SDLC
- Why Devops?
- What is Devops?
- Devops Lifecycle
- Devops Tools
- Basics of cloud computing

Module 2:

Basics of Linux:

Topics:

- Basics of Linux
- Server Management in Linux
- Basics of networking
- Bash Scripting
- Basics of scripting
- Variables, Conditions, Loops, etc.
- Automating day–to–day admin tasks

Module 3:

Version Control–GIT:

Topics:

- GIT Features
- 3–Tree Architecture
- GIT – Clone /Commit / Push
- GIT Hub Projects
- GIT Hub Management
- GIT Rebase & Merge
- GIT Stash, Reset, Checkout
- GIT Clone, Fetch, Pull

Module 4:

CI/CD Tools Docker:

Topics:

- Introduction to Docker Fundamentals & Docker Containers
- Build Manage and Distribute Images
- Docker run, Docker Environmental Variables & Layered Architecture
- Network, Storage, and Docker Compose
- Docker Conclusion – Swarm Vs Kubernetes

Placement Shiksha

The Complete DevOps Course

Module 5:

CI/CD Tools Jenkins:

Topics:

- Introduction to Jenkins
- Create First Job
- Jenkins Architecture
- GitHub & Jenkins Build
- Jenkins Build Jobs & DSL
- Jenkins DSL & Pipeline
- Project–1 Maven
- Build CI and CD pipeline with Jenkins
- PROJECT

Module 6:

Kubernetes:

Topics:

- Minikube Setup
- Kubernetes Architecture
- Kubernetes Pods
- Replication controller and Replicase
- Pod Creation using YAML definition file
- Replication controller and Replicaset
- Deployment
- Services

Module 7:

Build tool– Maven:

Topics:

- Maven Installation
- Maven Build requirements
- Maven POM Builds (pom.xml)
- Maven Build Life Cycle
- Maven Local Repository (.m2)
- Maven Global Repository
- Group ID, Artifact ID, Snapshot
- Maven Dependencies
- Maven Plugins

Module 8:

Ansible:

Topics:

- Ansible Intro
- Ad Hoc commands
- Modules
- YAML into
- Playbooks
- Project on Continuous Delivery and Configuration Management

Placement Shiksha

DevOps Course Learnings

- Kubernetes for orchestration.
- Structure to create applications in containers.
- CI/CD Pipelines: Automated software delivery pipelines.
- Fostering collaboration and communication.
- Integrate Jenkins plugins with popular development software.

What roles you can play?

Devops Engineer: Specializes in merging development and operations to enhance software development processes.

DevOps Lead: Orchestrates the entire DevOps process and oversees team operations to ensure smooth functionality.

Cloud Engineer: Specialized in cloud platforms, specifically Azure and AWS, to design, implement, and manage cloud infrastructure.

Automation Engineer: Focuses on automating repetitive tasks and processes to improve efficiency and reduce manual errors.

DevOps Manager: Facilitates collaboration between software engineering, QA, and IT operations teams.

AWS DevOps Consultant: Provides expert consultation on AWS tools for designing, provisioning & deploying software solutions quickly.

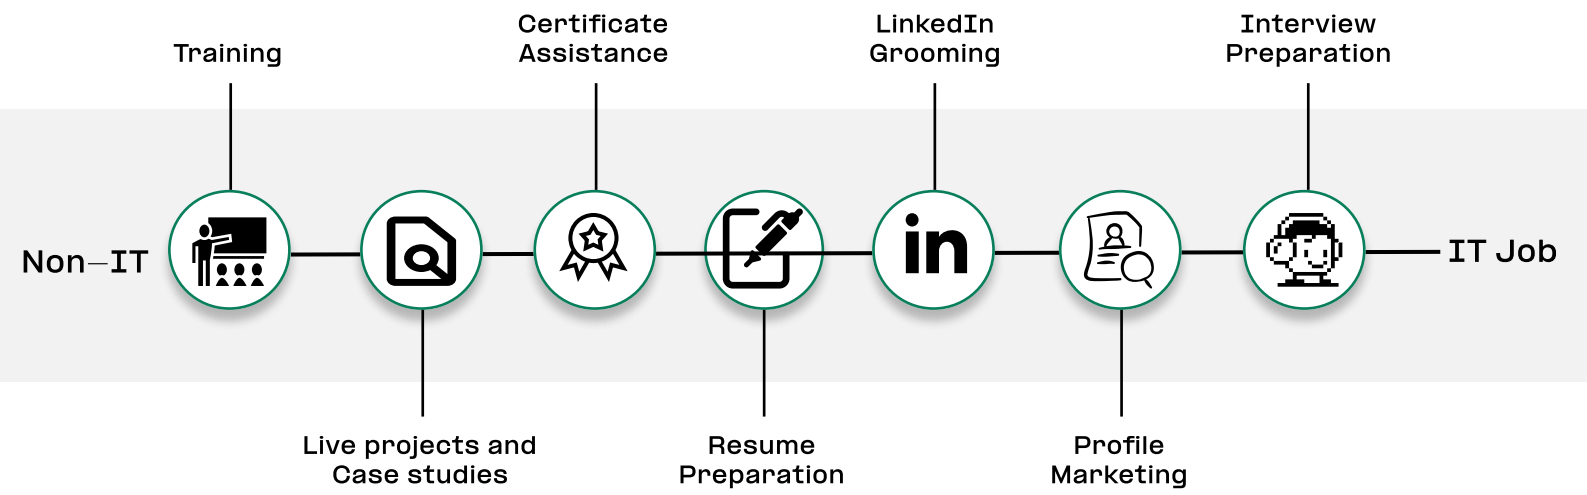
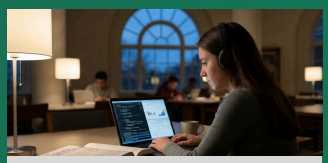
Our Students Lifecycle



Who can Apply For Our Courses?

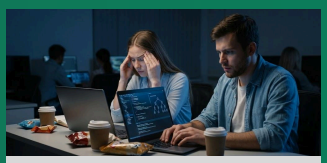
This course suggests an intensive "bootcamp" style approach, designed to take a student from basic coding to "job–ready" status by combining theoretical computer science with modern, industry–standard tools.

Professionals who want to upskill.



Freshers who want to get IT Jobs.

Managers who want to learn tech skills.



Aspirants who want to get into IT from Non IT.

Placement Shiksha

What Make Us Unique

800+ Qualified Trainers	300+ Hiring partners	90% average annual salary hike	7500+ Students got placed

Our Career Services

Industry–First Curriculum: Bridging the gap between academia and real–world engineering.

Architectural Focus: Learning to build scalable systems rather than just writing code.

Dual Core Mastery: Prioritizing both DSA and System Design as your career foundation.

Career–Ready Rigor: Ensure you ace top–tier technical interviews.

Specialized Electives: Nine distinct paths, from GenAI to DevOps, to tailor your career.

Holistic Tech Exposure: A 360–degree view of the lifecycle, from backend to leadership.

Intensive 6–Month Sprint: Condensing years of experience into one high–impact semester.

Outcome–Driven Learning: Education designed with the singular goal of placement.

Placement Shiksha

Our other paid Services

1–on–1 Mentorship:
Personalized, bi–weekly strategy sessions with senior engineers from top tech firms.

Elite Referral Network:
Direct access and internal referrals to 200+ partner companies and startups.

Mock Interview Loops:
Simulated technical and behavioral rounds with real–time feedback from experts.

Portfolio Audit:
Professional review of your GitHub and projects to ensure they meet production standards.

Lifetime Alumni Access:
Ongoing entry to our private community, job boards, and updated course materials.

Resume & LinkedIn Polish:
Expert optimization of your professional profiles to beat automated ATS filters.

Placement Shiksha

Ishaan
★★★★★

"The placement training at Placent Shiksha was a game-changer for me. The instructors are highly skilled and helped me bridge the gap between academic knowledge and industry requirements. I'm now successfully placed in a top-tier firm!"

Arjun
★★★★★

"I am incredibly grateful to the team at Placent Shiksha. They don't just teach; they mentor you through every step of the interview process. Their mock interviews and resume-building sessions gave me the confidence to land my dream job."

Sanya
★★★★★

"The courses are well-structured and highly engaging, focusing on real-world scenarios. Placent Shiksha played a pivotal role in my professional development, and I highly recommend them to any lifelong learner looking to level up."

Deshmukh
★★★★★

"Choosing Placement Shiksha was the best decision for my career. The placement cell is proactive and truly cares about your success even after the course ends. I felt respected and supported throughout my entire journey here."

What our students Say?

Placement Shiksha

About Placement Shiksha

Placement Shiksha is a premier career-tech platform dedicated to bridging the gap between academic learning and professional employment.

Why Choose Us?

- **Industry-Aligned Training:** Master the technical and soft skills actually demanded by today's recruiters.
- **Personalized Mentorship:** Learn directly from experts at top MNCs and high-growth startups.
- **End-to-End Support:** From ATS-friendly resume building to mock interviews, we guide you through every step of the hiring funnel.
- **Direct Placements:** Gain exclusive access to our extensive network of hiring partners.

Our Mission

Our mission is to democratize career success by transforming every candidate into a job-ready professional. We bridge the gap between academic learning and corporate expectations through accessible, high-quality training and expert mentorship.
